Software Engineer

Interested in algorithmically seeking out contradictions and inconsistencies in deceitful text, specifically in "bipolar" legal text. With roots in compilers, graph layouts & database query synthesis (SQL), and high-performance server code, the last 7+ years of my NLP development focus and intensive structural modeling of "case text" led to my accumulated expertise in the convergence of algorithms and the law.

Technical Skills

• Deep Learning, NLP (natural language processing), semantic searches, graph algorithms, compilers
• Priority skills: Python, PyTorch, GPU/CUDA, Rust, Typescript, React, PostgreSQL, Tensorflow, Lean, Julia
• Relevant skills: Java (sold an EJB server), C/C++, Golang, Javascript, Lisp, dev ops (all Linux-based)
• Legal skills (with a systems/analytics/engineering perspective): Mass. and federal/constitutional code

Imre Kifor - Personal History

Newton, MA 02464 | 857-340-8699 | ikifor@gmail.com | https://github.com/quantapix

A Software Engineer And The Law

- I am 63+
- I am a legal immigrant and naturalized US citizen
- I have no valid (unexpired) driver's license or passport
- The "sanctuary city" of Newton kindly pre-paid my phone
- I sleep in a tent while awaiting bed availability in the homeless shelter
- I have been completely isolated and under an implied strict **"house arrest"** for years
- The courts have allowed my "forced indigency" (i.e., no assets, no savings, no car, etc.) for costs
- I must apply for 10 full-time jobs per week and my current total on 5/20/2025 is **2,560+** (since 2019)

A Fabricated Family Tragedy[1]

- I am an involuntarily divorced father and have attempted to rebuild a new family after the divorce
- I have known about the "win-win" strategy directly from the "Father" of our "progressive" divorce laws
- The recipe is simple: provoke "evil" fathers to resist any inherently child-abusive treatment, and the reinterpreted "attacks" on protected "victim" mothers become justified causes for swift punishments

A Defendant's Layman Efforts[2]

- I have been falsely arrested, with the "domestic violence victim" immediately pleading the fifth
- The police were called on me for **false** "beating my children," yet the 3 officers did not make an arrest
- I was labeled with "possible personality disorders," with 3 Harvard psychiatry professors disagreeing
- The courts allowed **false** rape, child abuse, "toxic masculinity," etc., claims against me while denying my due process rights. I was then prohibited from contacting my children, only to be forcibly silenced
- I have invested my last savings and retirement (about $1M) into my third software startup, Quantapix

"Conspiracy To Silence And To Enslave"[3]

- I have been complaining in court about predatory fraud, defamation, and statutory discrimination
- My in-arrears child support obligations have now reached **$450K+** through ~30 hearings since 2018
- I have petitioned the U.S. Supreme Court **four** times already for a review of the troubling matters

Roots And National Origin

- I grew up in Ceausescu's Romania, a cruel communist tyranny, as a hated minority
- As a university student, I was targeted and beaten by the Romanian secret police ("Securitate")
- I was accepted as a grateful immigrant in New York City in 1986 on a political asylum basis
- I have been a proud US citizen with no political "identities" nor entitlements of any kind since 1994
